

RAM ROD HOLDERS / MOUNTS

RAM is the revolutionary universal ball and socket mounting system that allows you to mount practically anything anywhere. Unlike other mounts on the market, RAM allows you to mount items where you need them most. If you need to mount a Rod Holder, GPS or Fish Finder look no further. RAM mounts will help you make a professional job easy. Its unique design provides easy installation, mobility, strength, versatility, vibration protection and durability, all at a low cost. RAM is backed by a Lifetime Warranty which makes it the mounting system of choice. To provide light weight strength and corrosion resistance, RAM uses marine grade aluminum with a powder coated finish, light weight nylon injected molded plastic, stainless steel hardware and rubber balls.
